INTERNATIONAL STORYTELLING FESTIVAL UDAIPUR

**TO WHOM SO EVER IT MAY CONCERN**

Udaipur Tales International Storytelling Festival was mounted for the first time in the year 2017 with an objective to popularise oral storytelling and conserve the craft. Storytellers and artists are invited to this Festival to narrate their unique stories from all over the world. This helps to sustain their venerable genres; and to also celebrate innovative new voices & visions in the storytelling arena.

The Legend of Ila magnificently fulfilled the latter goal: electrifying the audience with its relentless virtuosity and imaginative use of ancient gender myths to dramatize and help resolve crucial contemporary controversies.

The story was staged at our second edition in 2018. In terms of entertainment, education and humane enlightenment, it remains memorable. We highly recommend this unique work and its creative team and hope their insightful artistry will continue to open minds and hearts for many years to come.

Shaurya Shekhar

Director
